Times listed above are an approximation based on my experience. They will vary based on the level of the dancer(s), how quickly they learn/retain, how the inspiration is flowing for me, the style of the routine and the pace of the choreography, and of course my intake of Licorice ;)

I always respect the schedule of the studio and the clock and will do everything I can in my power to leave you with the utmost best quality, workable, completed routine that will be filmed and let you polish up!

Thank you for your interest!!

BOOKING GUIDELINES

Minimum of **\$850.00 of work per day**

For example, if I leave town on a Friday morning and work for you Friday, Saturday, Sunday and return Sunday night, that amounts to \$2,400.00 of work. This is to off-set the income lost from commercial work; classes, rehearsals, privates while working with your students!

Gas Expenses: All studios within driving distance are expected to reimburse for gas round trip. Receipt will be given when arrived or will be built into contract.

Sharing Weekends

Studios can share my time when they are within the same general area.

- The Studios must be within a reasonable driving distance from one another (2hrs or less)
- The Studios agree to split airfare and accommodations 50/50
- The Studios will share driving responsibilities when applicable (for example, meeting halfway between studios to “exchange” me)
- The studios must either share a feasible airport or be willing to fly me into one and out of another, which may add cost.
- The \$800 work minimum still applies and can be split accordingly
